Forecast for Wednesday 07 Jun 2023

Weather: Cloud will push in from the east overnight, however the far east of the park may remain cloud free throughout the night. The cloud will once again quickly disperse by mid morning. A warm and dry day follows with lots of very strong sunshine. Holding onto clear skies for the first part of the night, with some late evening sunshine but low cloud likely to return from the east later overnight.

Chance of cloud-free hill tops above 600m: 40% at first, though this risk mainly in the east, all areas increasing to 100% by mid-morning.

Low cloud and visibility: Cloud with bases between 300-400m in the east at first but these lifting and clearing by mid-morning to clear skies for the remainder of the day. Excellent visibility and good clarity for scenic viewpoints.

Meteorologist's View

Another good day to be out on the hills but it will be warm with high UV levels so it is important to think about taking precautions such as sunglasses, caps and sunscreen, and also to take plenty of water.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Thursday 08 Jun 2023

Weather: A risk of some early morning mist and cloud to start, mainly in the east, but this clearing quickly by mid-morning. Dry through the afternoon and evening with long-lived strong sunshine. Clear skies remaining to end the day but winds will start to strengthen becoming gusty overnight.

Maximum wind: Easterly winds 10-15mph, isolated gusts up to 25-30mph.

Chance of cloud-free hill tops above 600m: 60% in the early morning, rising to 100% for the rest of the day.

Low cloud and visibility: A risk of low cloud returning in the east during the early hours with bases around 300-400m, before breaking up to leave cloudless skies and excellent visibility.

Temperature: **Valleys:** Plus 7 Celsius, rising to plus 23 Celsius.
At 600m: Plus 3 Celsius, rising to plus 12 Celsius.
Freezing level: Above all summits.
